PB 150 Ex manual push button

The flameproof PB150 manual push button is ATEX / IECEx certified for use in potentially explosive atmospheres. It can be used to activate alarms to alert personnel to potential dangers, help signal the need for immediate action in emergency situations and more. It is made from GRP. Optional SIL2 IEC61508 certification.

ATEX / IECEx Certification: ATEX Zone 1 and Zone 2 Certified for group IIC gas / vapour and Zone 21 and Zone 22 compliant for dust / powder applications.

Application: Oil and gas, chemical, petrochemical, pharmaceutical, marine and offshore applications

Key features: Robust and highly reliable, this Ex manual push button is designed for corrosive environments and hazardous areas. Housing is moulded Glass-Reinforced Polyester (GRP), protected by a UV resistant paint. These ATEX / IECEx compliant manual push buttons are compatible with PLC, ESD and DCS systems.

Options: There are two versions, a push button and push button with key to Reset. The visualisation functions, line detection and lift flap protection are optional. A range of accessories is available to customise this ATEX / IECEx manual push button. These include pipe mounting brackets, sunshades, tag and duty labels and other accessories.
